

! Start the GASCalc software, by double-clicking on the *GASCalc 5.0* icon found on the desktop.

! Some versions of GASCalc will require the software to be registered. If your version does, the Registration screen will appear. This displays the Serial Number associated with your license and will prompt you to enter the Registration Number. To request the Registration Number, select the *Request Registration Number* command button, or manually request the registration number by sending an email (please include your Company Name and the Serial Number) to registration@b3pe.com. Once you have received the Registration Number, enter the number at the prompt, then select the *Continue* command button. You will **not** be able to fully use the software until it has been registered.

The screenshot shows a registration dialog box with the following content:

- Title: Registration...
- Message: This Software Is Not Registered...
- Serial Number: 55976
- Registration Number: [Empty text box]
- Section: Use One Of The Following Methods To Register The Software...
- Option 1: For A Local License Installation - Click Below Or Contact The Vendor To Obtain A Registration Number. Enter The Number In The Data Field Above. Then Click Continue To Register The Software. Button: Request Registration Number
- Option 2: For A Network License Installation - Click Below Or Contact Your Network Administrator To Register The Software. Button: Set Network License Path
- Buttons: Cancel, Continue

! If you need to enter the registration number at a later time, select the *Cancel* command button to close the Registration screen. After you have received the Registration Number, restart GASCalc and enter the number at the prompt.

! If you start the software without registering, you may do so by selecting the *Request Registration Number* menu item from the *Technical Support* submenu of the *Help* menu list. Once you have received the Registration Number, restart GASCalc, enter the registration number on the Registration screen, then select the *Continue* command button. You will **not** be able to fully use the software until it has been registered.

! After the software has been loaded into memory, the *GASCalc Copyright Notice* will appear. Select the *Continue* command button to enter the software.
