

- Start the GASWorkS software, by double-clicking on the GASWorkS 9.0 icon found on the desktop.

- Some versions of GASWorkS will require the software to be registered. If your version does, the Registration screen will appear. This displays the Serial Number associated with your license and will prompt you to enter the Registration Number. To request the Registration Number, select the *Request Registration Number* command button, or manually request the registration number by sending an email (please include your Company Name and the Serial Number) to registration@b3pe.com. Once you have received the Registration Number, enter the number at the prompt, then select the *Continue* command button. You will **not** be able to fully use the software until it has been registered.

- If you need to enter the registration number at a later time, select the *Cancel* command button to close the Registration screen. After you have received the Registration Number, restart GASWorkS and enter the number at the prompt.

- If you start the software without registering, you may do so by selecting the *Request Registration Number* menu item from the *Technical Support* submenu of the *Help* menu list. Once you have received the Registration Number, restart GASWorkS, enter the registration number on the *Registration Screen*, then select the *Continue* command button. You will **not** be able to fully use the software until it has been registered.

- After the software has been loaded into memory, the GASWorkS *Copyright Notice* will appear. Select the *Continue* command button to enter the software.

Getting Help

Hours - Our normal work hours are 8:00 A.M. to 5:00 P.M. Mountain Time, Monday through Friday. However if you have a problem, please try at any time, we may be in.

By Telephone - Telephone: (719) 578-9391

Toll Free (US Only): 1-800-391-9391

By Email - You may email us at help@b3pe.com.
